

Product change notification

Pilot devices Modular range UL Compliance File number change

PCN Details

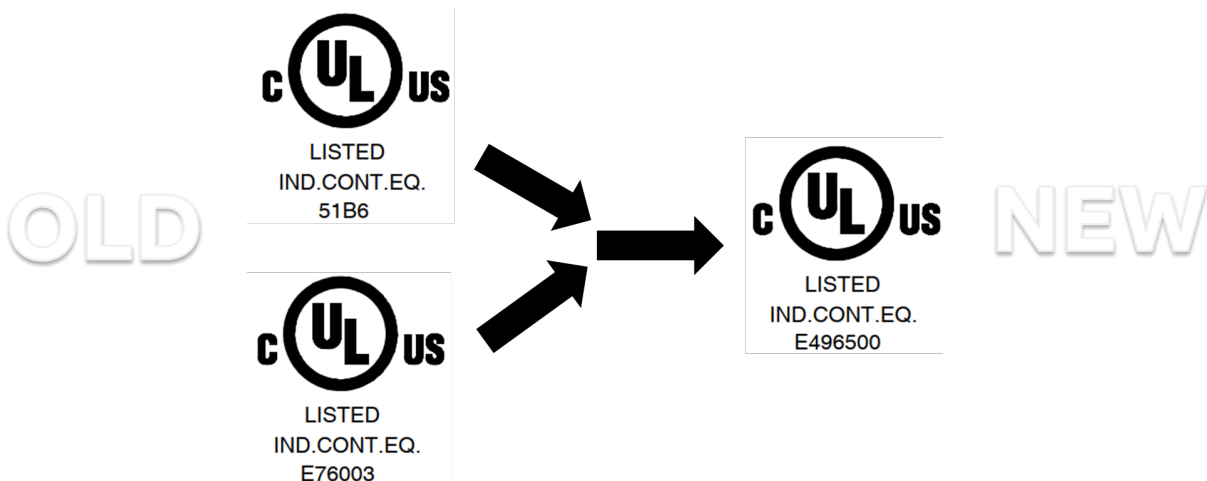

PCN Document No.	1SFC151084K0201	Date of PCN:	2024-2-20
PCN issued by:	Pavlo Tkachenko	PCN valid as of:	2024-2-20
Product Manager:	Raymond-JianCong Hunag	Obsolescence Date:	
R&D Manager:	Charles Doiron	Change Date:	April 2024
Products impacted:	Modular plastic range and modular metal range		
Impact on Form/Fit/Function:	<input checked="" type="checkbox"/> Form <input type="checkbox"/> Fit <input type="checkbox"/> Fctn	Impact on reliability:	<input type="checkbox"/> Y <input checked="" type="checkbox"/> N

Dear Valued Customer,

The purpose of this communication is to inform you of an upcoming change to the following product. This change is part of the effort and commitment to continuous improvement to our products and our processes.

Description of Change

The UL Compliance File number applied to Modular Plastic and Modular Metal product ranges is about to be changed. Instead of two, we will use only one with E496500 identification due to the consolidation of the UL files. The details of the change is shown on the image below.

Customer Impact of Change and Recommended Action

No impact.

Reason for Change

Optimization on the quantity of the UL files.

Product Identification

The relevant product UL mark logo will be substituted.

Customer acknowledgement

Customers are requested to acknowledge this notification within 10 days of its issue date. Lack of response with 30 days of PCN release will constitute an acceptance of the change.

Please contact ABB if you have any issues with this PCN or require additional information.

Revision Sheet	Description	Date Dept./Name

A general Excel template featuring a collection of custom styles and colors according ABB's branding and the ABB logo. Contains a "1st sheet" with title block for identification and classification. It is compliant with the ABB standards 9ADA13 and 9ADA354.

Usage:

- Use the template as base for any Excel document. If no document classification and control is needed, the first sheet can simply be deleted.
- For template responsible persons to use as base when creating local templates, adjusted to business needs.
 - The template must be adjusted by local template responsible persons to achieve e.g. metadata synchronization between document and application. This is technically difficult to achieve without using some add-in.
 - Attributes might need to be added or replaced based on local and/or customer requirements.

NOTE – Delete this section (rows 19-22) once done!
