

03-Mar-2010

PCN #:E-10-004058

Subject:Product Change of FASTON crimp / stud mounted Tabs - All Series

Description of Change:Plating designation and thickness change

Reason:In an effort to standardize manufacturing practices Tyco Electronics has completed a review of our current tin plating thickness standards of all products. This review has resulted in our decision to reduce the tin plating thickness on selected FASTON tab part numbers from the current requirement to 40 microinches minimum. Other than thickness, no change is being made to the tin plating specification. It is also important to note that Tyco Electronics offers several other industry accepted product families that have plating thicknesses in the 20-40 microinch range.

Impact of Change:Form-Fit-Function

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

Tyco Electronic's corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the Tyco Electronics Product Information Center at 800-522-6752 or your Tyco Electronics Sales Representative.
