

Product Change Notice

November 15, 2010

PhotoMOS Relays and Solid State Relays: Package Marking Change

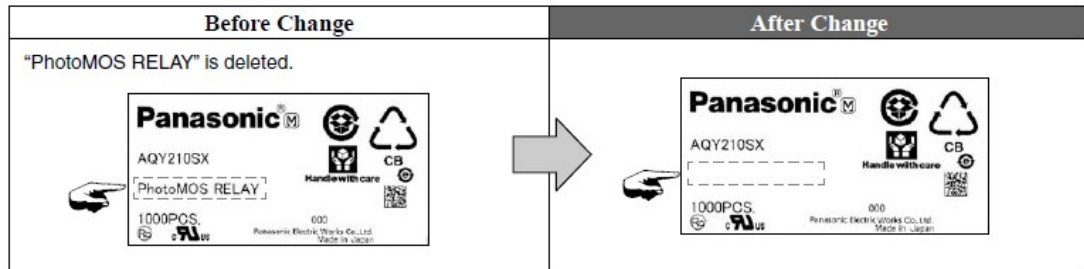

Description: Change of inner and outer package marking

Affected Products: A complete list of part numbers is attached.

- PhotoMOS Relays: all types
- Solid State Relays: all types

PhotoMOS Relay

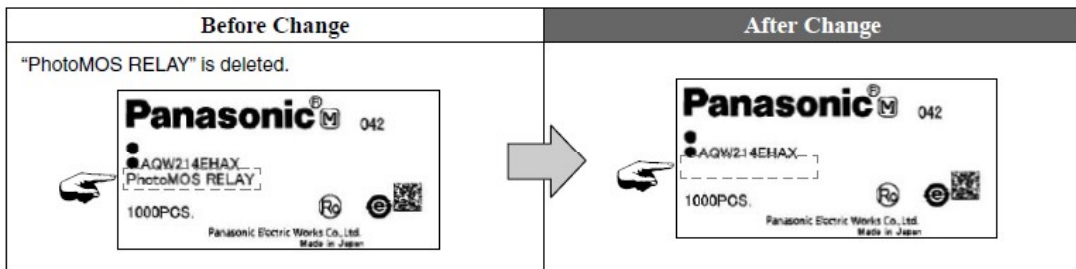

1) Outer carton

*The same change applies to the small label affixed to the reel for the SMD type.

2) Inner carton

1. Tape and reel packing style (Surface-mount terminal)

2. Tube packing style (Through hole terminal, surface-mount terminal)

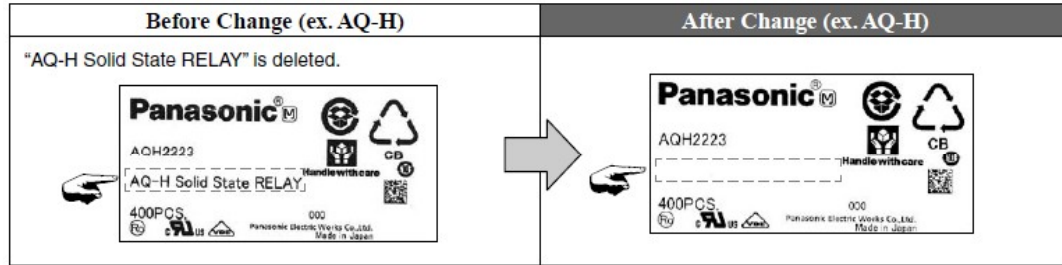

There will be no change to the label affixed to the moisture proof bag.

*Not displayed on tube packaging (inner carton)

Solid State Relay

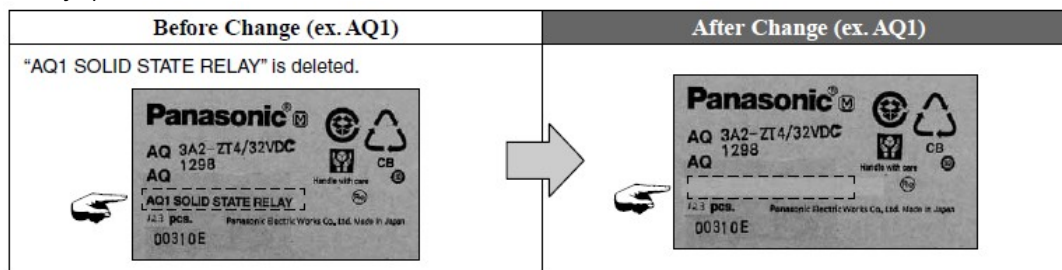

1) Outer carton

APT Phototriac Coupler and AQ-H Solid State Relay's packaging label:

*The same change applies to the small label affixed to the reel for the SMD type

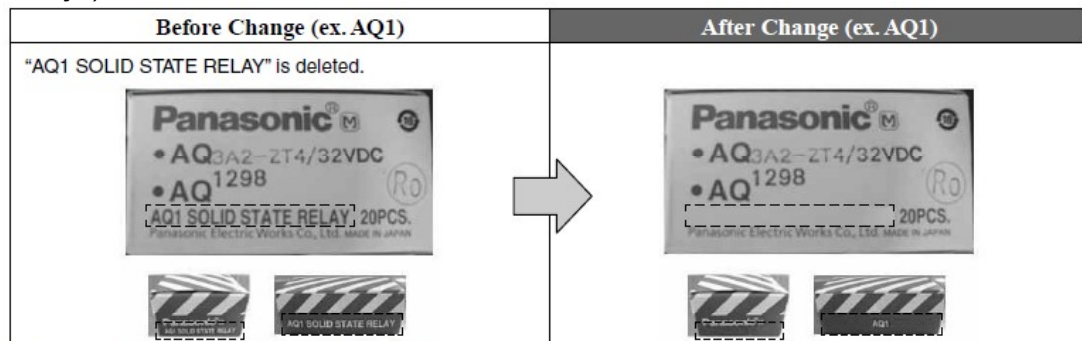

Solid State Relays (except APT Phototriac Coupler and AQ-H Solid State Relays):

2) Inner carton

APT Phototriac Coupler and AQ-H Solid State Relay's packaging label
Same as inner carton of PhotoMOS relay.

Solid State Relays (except APT Phototriac Coupler and AQ-H Solid State Relays):

*Lower right figure deletes "SOLID STATE RELAY".

Part Number, Performance and Product Type: Remain unchanged.

Schedule: Effective January 2011 (production basis)

Please contact Panasonic Electric Works representatives with any question.
