|                            |               |
|----------------------------|---------------|
| Power (W)                  | 60            |
| Voltage Input (VAC)        | 90-264        |
| Output Voltage (VDC)       | 24            |
| Output Current (A)         | 2.7           |
| Operating Temperature (°C) | -20 to 70     |
| Dimensions LxWxH (in)      | 4 x 2 x 1.2   |
| Mounting Type              | Chassis Mount |
| Cooling Type               | Convection    |
| Isolation                  | Isolated      |
| Package                    | Open Frame    |
| Connector                  | Molex Header  |
| Number of Outputs          | 1             |
| Vout 1 (VDC)               | 24            |
| Iout 1 (A)                 | 2.7           |
