Notification of lead time change

Dear valued End-Customer or Sales Channel Partner,

We are writing to you to advise that our Open Frame products have had their lead time extended from 12 weeks to 20 weeks. The product families impacted are as follows:

MAP/MPU Series
PFC Series
CPA/CPD Series

The main reason for this is that our Magnetics supplier has been late with its deliveries. We have qualified a second source and we are also adding more capacity in our factory to minimize the disruption to your business.

We expect improvements by early October so please continue to work with your Sales contacts and Customer Service representative to prioritize any critical orders you may have.

We would also like to take this opportunity to thank you for your business in the past and to assure you that everything we do is aimed at continuing to be your power supply partner of choice.

Best regards,

David Campbell
National Distribution Manager

About Bel

Bel (www.belfuse.com) and its divisions are primarily engaged in the design, manufacture, and sale of products used in networking, telecommunications, high-speed data transmission, commercial aerospace, military, transportation, and consumer electronics. Products include magnetics (discrete components, power transformers and MagJack7 connectors with integrated magnetics), modules (DC-DC converters and AC-DC power supplies, integrated analog front end modules and custom designs), circuit protection (miniature, micro and surface mount fuses) and interconnect devices (micro, circular and filtered D Sub connectors, fibre optic connectors, passive jacks, plugs and high speed cable assemblies). The Company operates facilities around the world.
