

PRODUCT CHANGE NOTIFICATION

Date Issued: July 5, 2017

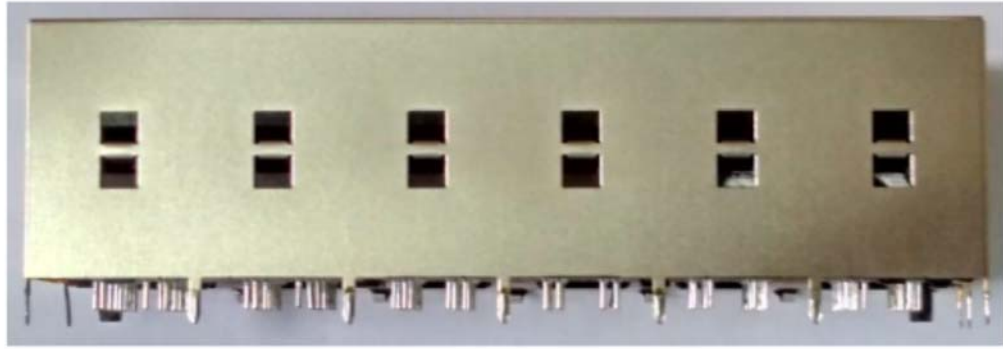

Product Identification: Bel 2xN ICMs, xxxx-xxxx-xxx

PCN Number: PC2170087

Reason for Change (s): In an effort to continually improve our product, Bel is pleased to announce an update to the rear shield grounding leads on our 2xN ICM series. This change is being made to enhance the strength of the rear shield grounding leads and help prevent deformation during handling of the ICMs prior to assembly onto a printed circuit board.

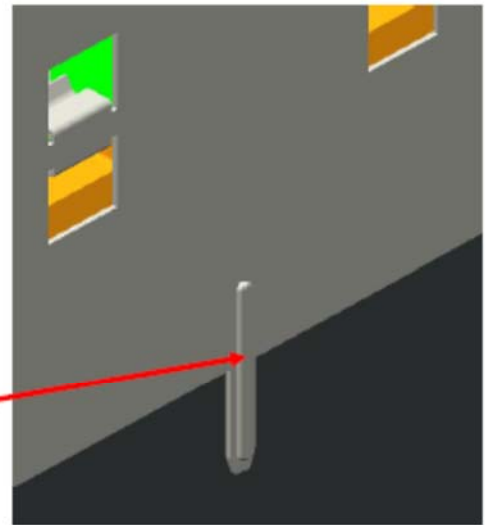

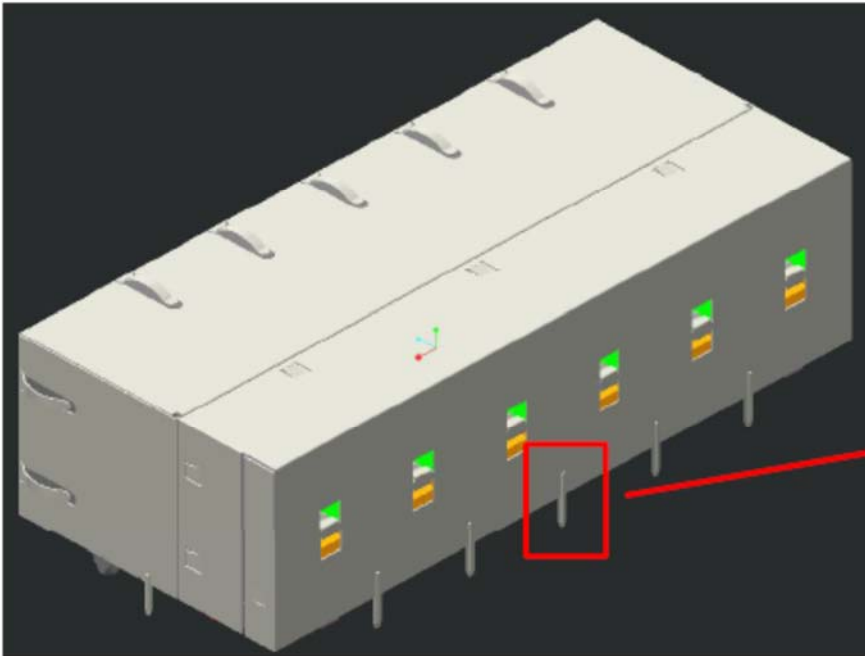

These changes will not affect “form, fit, or function”, nor do they affect any other dimensions or electrical parameters of the part. No other related changes to the above series are being implemented at this time.

Description of the Change (s): Bel is updating the rear shield grounding lead design, adding a rib to the lead. This rib will enhance the strength of the rear shield grounding leads and help prevent deformation during handling of the ICMs prior to assembly onto a printed circuit board, please refer to the image below for more details. Final dimensions and our OQC (Outgoing Quality Control) inspection standard will remain the same.
