Voltage tolerance is $\pm 5\%$. Non- suffix is $\pm 10\%$ tolerance. Other tolerances and non-standard zener voltages, available upon request.

To order MIL types; add a JAN, JTX or JTXV prefix along with a -1 suffix to the type numbers listed above.

For LL-34/35 MELF (DO-213AA) surface mount package MIL types, precede the -1 suffix with "UR".

For Commercial MELF types, substitute an LL prefix in place of 1N.
