FINAL REMINDER

Electrical and Physical Changes to Specified JW Miller® SMD Models on May 1, 2009

As we approach May 1, 2009, we issue a last reminder of this important, upcoming change.

As announced on October 31, 2008, electrical and physical changes detailed in the PCN, "*Electrical and Physical Changes to Specified JW Miller® Models*," will be made on May 1, 2009. Beginning May 1, 2009 only the revised configuration of the 38 affected models will be available. If you need a copy of the original PCN, which includes details of all changes, [click here](#).

A last time buy for any of the 38 affected JW Miller models in the original configuration may be made up to April 30, 2009. Any order received on or after May 1, 2009 will be manufactured to the revised configuration.

[Data sheets for the revised configuration are available on the Bourns website](#). These data sheets will replace the "original" configuration data sheets on May 1, 2009.

If you have any questions, please contact:

Americas: Greg Gray - greg.gray@bourns.com

Europe and Asia: Guido Zehnder - guido.zehnder@bourns.com

Best regards,
Guido Zehnder
