

Feb. 3, 2014

Dear Distributor,

CDE is currently gearing up for volume production of snap-in capacitors to enhance our competitiveness in the marketplace. In the process we have found it necessary to standardize on raw material components. Please be advised that as of April 1, 2014 the attached list of snap-in capacitor part numbers will be discontinued. We will accept last time buy orders up until March 31, 2014. For purchase requirements beyond, March 31st we ask that you consider alternate CDE parts as replacements. If you have any questions regarding a suitable replacement, please be in touch with a CDE representative.

Sincerely,

A handwritten signature in black ink, appearing to read 'Debbie Dixon', is written over a light grey horizontal line.
