To whom it may concern

Please be advised that as a result of our recent PCN032112 which transferred the YM and PM series switch locks from our facility in Costa Rica to Huizhou China we are no longer able to provide VDE certification. We are in the process of qualifying to EN61058-1 which replaces VDE and expect to be certified by the third quarter of 2012. In addition we have replaced the CSA Certification with UL Canada certification.

We will accept order cancellations for those customers who cannot accept the part without VDE certification. In general this change only affects those customers that ship product into the European market and require VDE certification. Should you have any questions or require further information please feel free to contact your respective customer service person or one of our product specialists at 617-969-3700 extension 8659.

We regret any inconvenience this may cause.

Best Regards,

Vincent Acampora
