

DFARS Clause 252.225-7014 Preference for Domestic Specialty Metals

March 31, 2006

To Whom It May Concern:

DFARS Clause 252.225-7014, Preference for Domestic Specialty Metals, requires that any specialty metals incorporated in articles delivered to the Department of Defense be melted in the United States or its outlying areas. Specialty metals melted in qualifying countries or incorporated in an article manufactured in a qualifying country (which excludes the U.S.) are excluded from this requirement. Additionally, Alternate I of the clause removed a subcontractor exception and now dictates that the specialty metals requirement flow down to all subcontracts for items containing such metals.

Dialight Corporation offers a wide range of products and is not in a position to certify compliance of its entire product line. The following product series, however, do not contain the specialty metals indicated in the clause.

Series listed by 3-digit product family (first 3 digits in Dialight order code):
