REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals)

As a supplier of complete products (known as articles under REACH), the ebm-papst group of companies are working with their suppliers to ensure that all chemicals used in the production of our products are correctly registered under the REACH regulations for reasons of both legal compliance and continuity of supply.

There are currently no Substances of Very High Concern (SVHCs) identified as being contained in our products although the review is ongoing and interested parties will be notified immediately if this situation changes.

Yours sincerely

David Morgan
Planning & Organisation Manager
