

Dear Valued

Distributors,

**Product Change Notice**

A change has been made to the housing of our 4400 series fans. This affects all 4400 series fans *except* for encapsulated versions (any fans with a “U” in the part number) or fans in the 4400E series. Those fans will remain unchanged as they have different housings than our standard 4400 series.

**Reason for change**

Continuous product improvement

**Description**

Flange area modified to be completely closed

**Effect**

Reduced area for ingress of dust as well as complete coverage of the PCB

**Attachments**

- “PCN, 4400 Series Housing, Affected Parts.xlsx” – Listing of part numbers affected
- “PCN, 4400 Series Housing.pptx” – Visual of the current versus new / improved design

This is a running change, so the new and improved design will ship as stock of the current design depletes. Please note that depending on stock levels, you may receive a mixed shipment of both the current and new designs.

Please let me know if you have questions, or if you need any further information.

Thank you,  
Jeannine
