

Product Change Notice

Date:	February 4, 2020
Overview:	Removal of CE mark on specific part numbers
Reason for Change:	Products do not comply with the specified efficiency values of the current directive and/or products are used in non-European markets due to their nominal supply voltages / frequencies, therefore the CE marking is not relevant
Affected Part No(s):	See attached
Design Change Detail:	The specified part numbers are currently marked with the CE stamp but will no longer be once this change is implemented
Effective Date:	Running change; all orders shipped from the factory as of February 1, 2020 will be shipped without the CE mark
Last Time Buy Deadline:	N/A
Pricing:	No change
ebm-papst employee:	Jeannine Zenobi
Attachments:	PN listing including voltage / frequency
Comments:	Compliance with CE is necessary for selling devices into the European market. For the CE mark to be allowed on an end device, compliance with efficiency values as per the current EU directive 327/2011 is mandatory. In Europe, the standard nominal voltage is 230V, and the standard frequency is 50Hz.
