**Revise / Change the STD Shipping Label**

Dear Valued Customer:

Epson Toyocom maintains a continuous effort to improve the production and delivery performance of its product. In this time, the Standard Shipping Label is changed as follows.  
The details are follows.

1. Affected Label : Standard Shipping Label for all products  
The individual shipping labels are changed that put the customer request based on this standard label (Registered 7 specifications now), too.
2. Change contents
  - 1) Change the item word from "QUANTITY" to "Q'TY".
  - 2) The column of three characters is installed behind the QUANTITY column.
  - 3) The mark to this column is for the internal management purpose.

Please refer to the attached Label illustration for details.

- 4) We add the "F" character in the standard shipping label as follows for the IC-Fab change of SG-8002/9001 series.

“F” を追記

### 3. Reason

To judge the manufacturing version of the packing products while packed.

### 4. Schedule

It changes the label from the shipment on December 1, 2009.

Please allow it may cause the different switching day (within around 2 weeks) at the each manufacturing sites.

If there are any concerns with this product change, please discuss them with your local Epson representative. We appreciate your understanding.

Sincerely yours,

Epson Toyocom Corporation
