**Date: September 24, 2019**  
**To: Bussmann series military fuse and fuse holder customers**  
**Subject: Stop shipment notification for select products**

Dear valued customer:

The products listed in the following pages are on a stop shipment per the directive of the DLA dated on 08/16/19 for the fuseholders and 08/31/19 for the fuses. All open orders will be cancelled. We will send a follow-up letter once we have resolved the open items. As a note, any item highlighted in orange will be going obsolete, and there will be no last time buys for those products.

There are available Bussmann™ series commercial equivalent products, but they may not meet all the requirements of their military counterpart, and each should be evaluated for its application.

Any part received prior to 8/16 date for fuseholders and the 8/31 date for the fuses below are saleable product and should not be returned, but anything that was received after those date can be returned. The returned parts will need to be unopened with a corresponding PO verifying the shipment date after the corresponding date mentioned above.

For further assistance in selecting a commercial equivalent product, contact [Fusetech@Eaton.com](mailto:Fusetech@Eaton.com), or your local Bussmann series product sales representative.

Kind regards,

AJ Johnson  
Product Manager
