Change Description:	A new PCT resin will be used in Modular jack Horizontal SMT's instead of current PPA resin. Waterproof packing option given to some parts (-X3X) will be unavailable and so PN will be changed to (-X1X).		
Reason for Change:	Since there is no moisture absorption for the new resin, it is found to have lesser chances of blistering and also results in Improvement of MSL Level (MSL1 instead of MSL2a). Qualification tests were carried out to confirm other product specifications and are found to be OK.
