

Product/Process Change Notification **PCN07098**

Product:	Millipacs Right Angle Receptacle 5Row & 8Row		Part Numbers Concerned:	See list attached
Product Manager:	Kevin Xie		Issue Date:	3 September, 2007
			Page(s):	1/1
Distribution:	GLOBAL			

Subject:

Improved terminal is to be applied for Millipacs Right Angle Receptacle

Nature of Change:

An improvement on the terminal EON area is done to increase the connector retention force which will bring the benefit of preventing connector drops off PCB during transportation after connector is pre-loaded to PCB. This improvement will bring no impact on product's electrical or mechanical performance which is specified in FCI's product specification.

After this improvement, there will be no change on finished goods part numbers and tail length will lengthen from 2.8mm to 3.22mm which still complies with IEC standard (IEC 61076-4-101).

EON of original version

EON of new version

Implementation Date:

New version terminals will phase in from Dec 3rd, 2007, after Jan 1st, 2008, all products will be with new terminals.

During transition period, only one type of terminal can be applied to single product or single lot with traceability record.

Affected Part Numbers:

See attached list
