Product:	HS METRAL® RECEPTACLES	Part Numbers Concerned:	See attached list for specific part numbers
Product Manager:	Jeff O'Brien	Issue Date:	21 st Jan 2008
		Page(s):	1/1
Distribution:	GLOBAL.		

Subject:

Manufacturing site change of HS metral® receptacles.

In order to remain competitive and optimize FCI's global manufacturing position, FCI relocates as needed manufacturing processes between regions and / or plant locations.

Nature of Change:

Currently FCI has manufacturing capabilities for various HS Metral® receptacle products in both India and the USA. FCI is electing to consolidate our HS Metral® Receptacle manufacturing footprint into a single region to support global sales. As a result FCI will be transferring the assembly manufacturing processes for our HS Metral® Receptacle product currently located in the USA to India.

Impact of Change:

We do not anticipate that there will be any impact on our level of service during this transition.

Implementation Date:

During the remainder of the 1st Quarter 2008, probably by April 21st FCI will produce sufficient gap stock to maintain the program while the equipment is disassembled, crated, shipped and set-up in India. Set-up in India is expected to be complete early in the 2nd Quarter 2008.

Distribution:

No distributor returns will be accepted due to this product consolidation.

Affected Part Numbers:

See attached spreadsheet for affected part numbers.

Action Required:

Sales to inform the customer base of this impending change.
