**Subject:**

Plating Changes of the given series.

FCI and its customers continue to be vulnerable to market fluctuations and price increases on the precious metals used in electronic connectors.

**Nature of Change:**

For all products plated with either Gold or GXT™, plating specifications will be changed to allow gold or GXT™ plating. GXT™ plating, a proven technology, incorporates palladium and gold to provide durability and protection that meets the performance of gold alone.

**Impact of change:**

All connectors will continue to meet the performance characteristics documented on their customer drawings and in the product specification.

**Implementation Date:**

May 28, 2008

**Affected Part Numbers:**

See attached list
