

Accuris has added the following environmental document to the active parts as mentioned in the document from Genesis Semiconductor Inc as of 29-June-2015.

Thank You.

GeneSiC Semiconductor REACH Compliance

REACH stands for **R**egistration, **E**valuation, **A**uthorization and Restriction of **C**hemical substances. This is a European Community Regulation on chemicals and their safe use (EC 1907/2006). This law created on December 18, 2006 went into effect on June 01, 2007.

GeneSiC Semiconductor is supportive of the scope and direction of REACH which is to promote and progress the protection of human health and the environment through careful examination of the properties of chemical substances. GeneSiC Semiconductor is willing to supply our customers with information about substances in our products as required. GeneSiC Semiconductor meets all applicable REACH requirements. GeneSiC Semiconductor's products are "articles" as defined in REACH Article 3(3) and do not release substances under their regular use. Suppliers of articles must provide recipients with information on Substances of Very High Concern (SVHC) if those are present above a concentration limit of 0.1% on an article level.

GeneSiC Semiconductor products do not contain any of the Substances of Very High Concern included through June 15, 2015 inclusive in its pure original form. These substances can be found at the following link.
