280-029S right angle PC tail socket connectors with low profile mounting flange

Low profile right angle PC tail HiPer-D ${ }^{\circledR}$ socket connectors feature rugged machined aluminum shell and stainless steel cover for improved EMI protection. Contacts are non-removable size, \#20 or \#22. Intermateable with standard M24308-type D-Subminiature connectors, the HiPer-D ${ }^{\circledR}$ features epoxy potting for environmental sealing. Threaded holes on the rear of the connector allow attachment to circuit board. Glass-reinforced thermoset epoxy insulators. 1000 VAC, 5 Amps (\#22) or 7.5 Amps (\#20).

| How To Order |  |  |  |  |  |  |

## NOTES

1. Contacts are factory-installed, non-removable and are potted with epoxy.
2. HiPer-D® connectors are available with a wide variety of materials and finishes. See About Series $\mathbf{2 8}$ HiPer-D ${ }^{\circledR}$ Shell Plating Options for additional choices. Glenair offers the industry's widest selection of plating and material choices with no setup charge, no minimum order quantity and no schedule impact.
3. For panel cutout dimensions, refer to Panel Cutouts and Printed Circuit Board Footprints.
4. For printed circuit board mounting dimensions, refer to Panel Cutouts and Printed Circuit Board Footprints.
5. HiPer-D ${ }^{\circledR}$ connectors meet the requirements of MIL-DTL-24308 and are intermateable with standard M24308-type D-Subminiature connectors with corresponding contact arrangements and type.
6. Additional electrical, mechanical and environmental specifications are listed in HiPer-D ${ }^{\ominus}$ Product Specification.
