Certificate of REACH Compliance

Micro Commercial Components Corp. (MCC) is aware of REACH as a European Community regulation on chemicals. Currently MCC supports the underlying goals of REACH, which are consistent with our own commitment to promote the responsible manufacturing, use and handling of hazardous materials and substances.

After careful review of the legislation and specifically the definition of an “article” as defined in EC Regulation 1907/2006, Title II, Chapter 1, Article 7.1(a)(b), it is our current view MCC products would be considered as “articles”. In light of the definition in §7.1(b) which requires registration of an article only if it contains a regulated substance that “is intended to be released under normal or reasonably foreseeable conditions of use,” MCC products constitute non-registrable articles for their intended and anticipated use analysed from the third-party report.

Micro Commercial Components Corp. (MCC) hereby certifies that all epoxy encapsulated package devices manufactured by MCC meet the substance restrictions specified in Annex XVII of Regulation (EC) No. 1907/2006 (REACH), do not contain substances on the REACH 233 SVHC candidate list in concentrations greater than 0.1% by weight per article, except Lead*(Pls see note below Table 1 List of Substance of Very High Concern) .

Sincerely,
Micro Commercial Components

Note:
Lead*(EC number 231-100-4, CAS number 7439-92-1) is used in some solder type products. In such cases the lead is RoHS exempted with 7a (lead in high melting temperature type die attach solders). It shall be noted that, in the REACH Regulation, substances called SVHC are specified as candidate substances for authorization based on Article 59(1), and are not regarded as banned substances. If present, Lead is declared in the table 2 List of packages containing lead.
