

Product Change Notification - CYER-31JLEX869

Date: 03 Dec 2016
Product Category: Analog (Thermal, Power Management & Safety); Micrel; Supertex; Analog (Linear & Mixed Signal) AND Interface; SMSC
Notification subject: CCB 1737 Initial Notice - Fabrication Site Qualification: Qualification of Microchip Fabrication sites for selected Micrel products.
Notification text: **PCN Status:**
Initial notification

Microchip Parts Affected:

Please open the attachments found in the attachments field below labeled as PCN_#_Affected_CPN.

NOTE: For your convenience Microchip includes identical files in two formats (.pdf and .xls).

Description of Change:

Qualification of Microchip Fabrication sites for selected Micrel products.

NOTE: Microchip will qualify Micrel process technologies and each process technology includes a list of catalog part numbers (CPN) provided in the attached parts affected list.

Pre Change:

Fabricated at Micrel fabrication site (San Jose, CA, USA) using 6 inch wafers.

Note: This change does not affect products fabricated at foundries.

Post Change:

Fabricated at Microchip Fabrication sites using 8 inch wafers.

Pre and Post Change Summary:

	Pre Change	Post Change
Fab Site	Micrel fabrication site (San Jose, CA, USA)	Microchip fabrication site
Wafer Size	6 inch wafers	8 inch wafers

Impacts to Data Sheet:

No impact anticipated.

NOTE: changes that impact the data sheet will be noted in the final notification.

Reason for Change:

To improve productivity as part of the integration of Micrel and Microchip.

Change Implementation Status:

In Progress

Estimated First Ship Date:

First Quarter of calendar year 2016

NOTE: Please be advised that after the estimated first ship date customers may receive pre and post change parts. Please review the tables below that guide the estimated sample and implementation availability.

Summary Time Table:

	Q3 2015	Q4 2015	Q1 2016	Q2 2016	Q3 2016	Q4 2016
Initial PCN Issue Date	X					

Estimated Sample Availability			X**			
Qual Report Available			X*			
Final PCN Issue Date			X*			
Estimated First Ship Date			X***			

*Qual reports and final PCNs will begin to be issued starting on Q1 2016 and will identify the products that are qualified but will be variable by process (See table below). A separate final PCN will be issued for each group of catalog part numbers that are available to build. Please note that the final PCN and qualification report will be issued before shipment.

**Samples may be available starting on Q1 2016 but will be variable by process (See table below).

***First shipment may begin as early as Q1 2016 but will be variable by process (See table below).

Process Technology Schedule:

* Process Technology	Intermediate PCN #	Intermediate PCN Issue Date / Qual Report Availability
CSI05	JAON-08AHID607	September 25, 2016
BCDM	JAON-11SIPZ900	April 14, 2016
BCC	JAON-24XLPK873	February 25, 2016
BCD2	JAON-22ZKEM744	February 25, 2016
BCDSI	JAON-24FRFP480	March 3, 2016
CSI12	JAON-26ABPQ300	April 29, 2016
BM2	JAON-26TTXD112	April 29, 2016
B2M2	JAON-08DHBR103	April 12, 2016
B2CD2	JAON-23PXEI807	May 27, 2016
BCD12	JAON-13MUGT016	March 16, 2016
S2	JAON-14FRVC158	November 4, 2016
SiGe	TBA	Q1 2017
BCD05	TBA	Q1 2017
BCD035	TBA	Q1 2017

*See Attached parts list to identify which catalog part numbers ****(CPN) are included in each process technology.

**** Please be advised that the part numbers listed are using Microchips part numbering convention as was announced in [PCN JAON-25ICCA251](#).

NOTE: Not all CPNs will be available for sample and estimated first ship date after each process has been qualified on the dates guided however a final PCN will be issued identifying sample availability and estimated first ship dates for each CPN prior to the estimated first ship date.

Markings to Distinguish Revised from Unrevised Devices:

Traceability code

Revision History:

September 1, 2015: Issued initial notification.

December 3, 2016: Removed S1 process technology. Micrel S1 process technology initial notification was issued with PCN # [JAON-01RSNA976](#). Updated affected parts list. Updated the Process Technology Schedule table to add the reference PCN #, Intermediate PCN Issue Date/Qual Report Availability and SiGe Process Technology.

The change described in this PCN does not alter Micrel's or Microchip's current regulatory compliance regarding the material content of the applicable products.

Frequently Asked Questions (FAQ)

Contacting Microchip: Microchip has Sales Offices Worldwide. To find your local office, please visit our website at: [Microchip Sales and Distribution](#). Also note that your current Micrel contacts will be moving to the Microchip email system over the coming weeks therefore their email address will change to first name.last name@microchip.com

Open Direct Orders with Micrel: Open Orders will be transferred to the Microchip Systems on or about 11/1/2015. Customers will be contacted by local sales offices prior to the transfer to ensure smooth transition.

Part Numbers: The Part Numbering system for Micrel products will be changing. All spaces and underscores (“_”) in existing part numbers will be replaced with dashes (“-”).

MOQ: Orders must be placed in multiples of tray, tube, bag, or reel size. Additionally, there may be a Purchase Order/Order Line minimum. Existing Micrel orders being converted to Microchip orders will be subject to the base quantity multiples requirement and may have a slightly different quantity.

Order Acknowledgement: Microchip provides Acknowledgements for all new Direct orders entered and for each change made to an existing Direct order. This document is typically provided via email.

Cancel/Reschedule: The table below provides information on the Microchip Cancel/Reschedule policy:

Catalog PN Restriction	Cancellation	CRD Push Out	CRD Pull In Allowed	CRD Push Out Allowed
Standard	>30 days PRD	>30 days PRD	Y	Y
Custom, Non Standard	>90 days PRD	>90 days PRD	Y	Y
QS9000	>90 days PRD	>90 days PRD	Y	Y
NCNR	N/A	N/A	Y	N

*CRD – Customer Requested Delivery Date

*PRD – Microchip Anticipated Delivery Date

ASN: When placing a Direct Order with Microchip, customers can elect to receive an Advance Ship Notice. This document advises that your order is prepared to ship to the location identified on your Purchase Order. If you wish to receive this notification, please contact your local Microchip Sales Office.

Managing Product Requirements During the Transition: The Micrel order entry and shipments systems will transition to Microchip systems on or about 11/1/2015. Until that time, please continue to manage your product requirements as you do today. Microchip will have a 'Quiet Period' that will occur for several days prior to the final integration so that we can import all existing Purchase Orders into our system. During that time we will not Accept New Orders, Modify/Cancel Existing Orders, or Ship Product. Please contact your local sales office with any questions or concerns.

Shipping and Invoicing after the transition: After November 1, 2015, all products will be shipped and invoiced from Microchip. Please alert your Receiving and Accounts Payable departments of this change. If a new PO must be issued to Microchip (and the corresponding PO to Micrel cancelled) this must be done prior to the 'Quiet Period' to ensure a smooth transition. Please contact your local sales representatives for assistance.

Vendor/Supplier Code: If your system requires a new code to support order placement to Microchip and receive in Microchip shipments, please arrange as needed.

Shipping Labels, Boxes and Packing Methods: Labels, Boxes and Packing methods will be standardized to Microchip's current processes.

Lots, Trace Codes, Date Codes, Part Aging, and Shelf Life: Standard Microchip methods for combining production lots, trace codes and date codes into tubes, trays, and reel media will apply as well as standard Microchip Part Aging and Shelf Life Policies. Microchip quality documents and policies including part aging policy are found on our website. [Quality Documents and Policies](#)

Payment Terms: Standard payment terms are N30

Terms & Conditions: Microchip Sales are subject to the company's Terms and Conditions ("T&C"). Microchip T&C does differ slightly depending on whether the customer is in the European Union or elsewhere in the world and whether they are purchasing Direct or through microchipDIRECT. Microchip Terms and Conditions are located on our website. [Microchip Terms and Conditions of Sale](#)

PCN: Standard Microchip methods for notifying customers about process or product changes and end of life products (EOL) will apply. We expect this service to be available to Micrel customers in early 2016. Once available, customers who wish to receive PCN via email are expected to register for service on our PCN web page. The Micrel PCN system will continue to be used until the Microchip system supports Micrel products but will be terminated after the transition to the Microchip systems is complete. Here is a link to the Microchip PCN web site: [Microchip PCN Website](#)

Micrel Integration PCN's: All PCN's related to the integration can be found at this website: [Product Change Notifications](#). Please check back often to ensure you are informed of all currently planned and future changes.

Micrel to Microchip Fab Transfer Frequently Asked Questions (FAQ)

Revision 1 – February 25, 2016

Why is Microchip making this change? The Micrel 6 inch fabrication facility in San Jose is closing. The Microchip 8 inch fabrication facilities will provide more capacity that will ensure continuity of supply. Microchip’s fabrication sites have improved defect control/inspections and more efficient/diversified fab equipment.

What is and what is not changing?

	Pre Change	Post Change
Fabrication Location	Micrel Fabrication Site (San Jose, CA, USA)	Microchip Fabrication Sites (Tempe, AZ and Gresham, OR, USA)
Wafer Diameter	6 inches (150 mm)	8 inches (200 mm)
Quality certification	ISO9001	ISO/TS16949
Data sheet / specifications	No Change	No Change
Design/layout	No Change	No Change
Die Size	No Change	No Change
Final test program	No Change	No Change
Package Type/MSL	No Change	No Change

What products are affected and what is the notification strategy? Microchip has identified the parts affected and is implementing a notification strategy with a three phase Product/Process Change Notice (PCN) approach.

Phase 1: Microchip issued an initial PCN on September 2, 2015. The link to this initial PCN is

- a. Qualification plan.
- b. Anticipated quarter and year for availability of each process technology qualification report.
- c. Affected parts list by process technology.

Phase 2: Microchip will issue intermediate PCNs as each of the 15 process technologies complete qualification.

Included in each of these PCNs is:

- a. Qualification report
- b. Complete list of Catalog Part Numbers (CPN) for the qualified process
- c. Link to the Micrel to Microchip fab transfer FAQ PDF document

The objectives of these PCNs are to notify customers that the given process technology has completed qualification and provide the report.

Phase 3: Microchip will issue Final PCNs as Microchip fabricated CPNs are released to production. Each of these PCNs will include:

- a. The Estimated First Ship Date (EFSD) of each CPN. Please note that there will be multiple PCNs issued over several months/years before implementation on all products has completed. Products from Microchip Fabs will not ship until after a phase 3 PCN has been issued and applicable CPN listed.

How does Microchip issue PCN's to customers? Microchip provides a PCN service. As part of this service customers have the option to receive PCNs via email if they register for PCN email service or view PCNs without registration on Microchips website. For information about how to register for PCN email service and all PCN services please view our PCN policy. The link to Microchip's PCN policy is:

What is Microchip's fabrication transfer qualification strategy? Microchip is using the following approach:

1. Copy functional (i.e. match the fab process films/design rules and device structures). There will be no change to the product datasheet specifications.
2. Follow Micrel's original qualification guidelines for non-automotive product (JEDEC JC14 compliant). The qualification plan is in the initial PCN as referenced above.

3. For automotive PPAP products, the plan is to follow Micrel's original Q100 compliant qualification testing.

Where is the qualification data for my device? Thousands of catalog part numbers of various product types (LDOs, switches, regulators, etc.) are produced from common Fab process technologies. Since it is not practical to qualify each individual part number, Microchip qualifies each Fab process technology and verifies the functionality and parametrics of each individual underlying product type. For each of the 15 process technology qualifications, a representative CPN was selected to be the primary qualification device.

For primary qualification devices, the following methodology is used: Three fab lots go through high temperature operation life (HTOL)/package level qualification testing and one fab lot goes through electrostatic discharge (ESD) and latch up (LU) testing to represent when the technology is qualified for production. All lots must pass high temperature operation life (HTOL), ESD, LU, preconditioning, temperature cycling, unbiased HAST, biased HAST, pressure pot, and high temperature storage testing per JEDEC guidelines. All CPNs will be represented by one of the 15 qualification reports that will be included in the phase 2 PCNs.

How will Microchip verify functionality of the Microchip fabricated material? To ensure that the Microchip fabricated devices behave statistically the same as the respective Micrel fabricated material, Microchip will perform room temperature production testing plus bench testing over temperature (cold, room, and hot) using Micrel and Microchip fabricated samples.

Then Microchip will compare the electrical distributions for the critical test parameters with the expectation that they are statistically equivalent. Microchip will also perform application/functional board level evaluations to ensure that the Microchip fabricated devices behave statistically the same as the respective Micrel fabricated devices.

Will the Catalog Part Number (CPN) change? No. The CPN will not change.

How can I determine if a product was fabricated in the Micrel or Microchip Fab? The manufacturing product code (MPC) and trace code can be used to determine the difference between Micrel and Microchip fabricated material. If the product is separated from the shipping label, then customers will be required to provide the trace codes to the local Microchip sales office for assistance in determining the die source. The trace code is located on the product's top marking. If the product's packing media is available, please review the following.

To determine whether the product is from the Micrel or Microchip Fab, please observe the MPC field that is included on the shipping label. The shipping label is located on various locations of the shipping media including reels, bags, and inner boxes. Please view examples below:

The label below left is an example of product fabricated at Micrel	The label below right is an example of product fabricated at Microchip
<p>(1P) CATALOG P/N : MCP1624T-I/CHY  (1T) LOT NO.: 120700201000NSEB   MSL: 1/260 C (Q) QTY (P) CUST. P/N:- PKG: SOT-23 3000 LEADS: 6  MPC: 2x6xxxxxxxxx DC QTY 1120 3000  WAFER QTY:- WAFER REV:A RETEST D/C:- WAFER LOT:- ID#:(001) TRACE CODE: 1120HWY,1120HWW  B00234/TC09 MADE IN THAILAND</p>	<p>(1P) CATALOG P/N : MCP1624T-I/CHY  (1T) LOT NO.: 120700201000NSEB   MSL: 1/260 C (Q) QTY (P) CUST. P/N:- PKG: SOT-23 3000 LEADS: 6  MPC: 2x8xxxxxxxxx DC QTY 1120 3000  WAFER QTY:- WAFER REV:A RETEST D/C:- WAFER LOT:- ID#:(001) TRACE CODE: 1120HWY,1120HWW  B00234/TC09 MADE IN THAILAND</p>

Please note the MPC field 4th row down on the left side of the label. The MPC is the 12 digit code that maps directly to a CPN, which is also on the shipping label (1st row on the left).

Although the catalog part number will remain unchanged, the MPC will be different. For Micrel fabricated material, the 3rd digit (from the left) in the MPC will be a 6 and for Microchip fabricated material, the 3rd digit (from the left) will be an 8. As an example, the MPC for the Micrel fabricated products will be 2x6xxxxxxxxx where x's are any letter or number. For the Microchip fabricated products, the MPC will be 2x8xxxxxxxxx.

What is Microchip's experience with Fab transfers?

Microchip has successfully completed several Fab transfers over the last 15 years representing millions of devices shipped to a large variety of customers within the automotive, medical, aerospace, industrial, and commercial segments.

Can I obtain Microchip fabricated samples for evaluation and/or qualification? Yes, customers should contact their authorized Microchip support channel to enter a request for samples. Samples will not be available until Microchip fabricated devices are released to production.

How will Microchip manage stability of supply during the transition? Microchip has built Micrel fabricated inventory based on historic monthly ship rates to fulfill customer orders until Microchip fabricated inventory is available.

MICROCHIP

QUALIFICATION PLAN

PCN #: CYER-31JLEX869

**Date
September 1, 2015**

**Qualification of Microchip Fabrication sites for selected
Micrel products**

Test Name	Conditions	Sample Size	Qty of Lots	Total Units	Special Instructions
ESD HBM	JEDEC JS-001 Ta = +25°C	15	1	15	Will follow Micrel's reliability test guidelines
ESD CDM	JESD22-C101 Ta = +25 °C	15	1	15	Will follow Micrel's reliability test guidelines
Latch Up	JESD – 78 Ta = +25 °C	6	1	6	Will follow Micrel's reliability test guidelines
HTOL	JESD-22A108 Vcc = operating max Ta = +125 °C To be tested for 168, 500 and 1000 hours	77	3	231	Will follow Micrel's reliability test guidelines
