The image shows a standard moisture sensitivity caution label. It features a 'no water' symbol (a circle with a diagonal slash and three water droplets) on the left. To the right of the symbol, the word 'CAUTION' is written in a bold, sans-serif font. Below 'CAUTION' is the text 'This bag contains' followed by 'MOISTURE-SENSITIVE DEVICES'. To the right of this text is a small rectangular box containing the text 'For MSL see barcode label'. Below the main text is a list of five numbered instructions regarding shelf life, temperature, and handling procedures. At the bottom, there is a line for 'Bag Seal Date' and a note at the very bottom stating 'Note: LEVEL and Body temperature defined by IPC/JEDEC J-STD-020'.

CAUTION
This bag contains
MOISTURE-SENSITIVE DEVICES

For MSL
see
barcode
label

1. Calculated shelf life in sealed bag: 24 months at < 40°C and < 90% relative humidity (RH).
2. Peak Package body temperature : _____ °C
(If blank, see adjacent barcode label)
3. After bag is opened, devices that will be subjected to reflow solder or other high temperature process must be:
 - a) Mounted within the time corresponding the MSL at factory conditions of ≤ 30°C/ 60% RH:

LEVEL 2 - 1 year	LEVEL 4 - 72 hours
LEVEL 2a - 4 weeks	LEVEL 5 - 48 hours
LEVEL 3 - 168 hours	LEVEL 5a - 24 hours
LEVEL 6 - Mandatory bake before use. After bake, must be reflowed within 6 hours.	
 - b) Stored per IPC/Jedec J-STD-033.
4. Devices require baking, before mounting if:
 - a) Humidity Indicator Card reads >10% for level 2a - 5a devices or >60% for level 2 devices when read at 23± 5°C
 - b) 3a or 3b not met.
5. If baking is required, refer to IPC/JEDEC J-STD-033 for bake procedure.

Bag Seal Date: _____
(If blank, see date code on barcode label)

Additional Notes:
The Termination Finish is Sn/Pb (Tin/Lead) with a minimum of 3% Lead(Pb). It does not contain pure Tin, Cadmium, Mercury, Zinc or Brass.

Under authority vested in me by Microsemi Corporation, I certify that all of the semiconductor devices included in the shipment, which this form accompanies, are as described above. These devices conform to all the requirements of the above referenced specification. Devices manufactured in accordance with MIL-PRF-19500 will have termination finishes compliant to paragraph 3.14 and Appendix B of that standard. Devices were manufactured and tested under a documented lot control procedure which provides traceability of constituent materials and manufacturing processes and documentation is on file and available for review. Return of this lot from the purchaser will not be accepted unless this form is returned with these specific devices, for traceability required for military product. In no case can this lot be combined with product covered by another certificate of conformance.

Special Exemption: All devices in this lot were assembled and tested as described in the Assembly section above using the manufactured by the Division identified. The Microsemi Ireland representative signs this certification as being delegated the responsibility by the appropriate division for the performance of all subsequent processing, screening, inspection and lot certification procedures.

Frequently Asked Questions (FAQ)

Contacting Microchip: Microchip has Sales Offices Worldwide. You have received this correspondence from a Microchip Inside Sales Representative, please continue to work with him/her to guide you through the transition. Should you need to find your local office, please visit our website at: <https://www.microchip.com/salesdirectory>. Also note that your current Microsemi contacts have moved to the Microchip email system therefore their email address has changed to firstname.lastname@microchip.com. You may also contact the following individuals within your geography:

Americas: Rozita Yajadda (Rozita.yajadda@microchip.com)

Europe: Mary Wilson (Mary.Wilson@microchip.com)

APAC: Nora Lee (Nora.Lee@microchip.com)

World Wide Distribution: Jennifer Innella (Jennifer.Innella@microchip.com)

EM EA Distribution: Jane Afshar (Jane.Afshar@microchip.com)

Asia Distribution: Derek Chan (Derek.Chan@microchip.com)

Open Direct Orders with Microsemi: Open Orders for affected parts will be transferred to the Microchip Systems on or about February 15, 2021. Customers will be contacted by local sales offices prior to the transfer to ensure a smooth transition. All orders will be transferred in US\$ currency. The details of the currency conversion will be outlined by your local ISR contacts closer to the transfer date.

MOQ: Orders must be placed in multiples of tray, tube, bag, reel size, custom pack or pallet. Additionally, there may be a Purchase Order/Order Line minimum. Existing Microsemi orders being converted to Microchip orders will be subject to the Microchip base quantity multiples and Microchip Purchase Order/Order Line item minimum.

Should changes be required when migrating open backlog, each customer will be notified with full details by your local Inside Sales contact.

Order Acknowledgement: Microchip provides Acknowledgements for all new Direct orders entered and for each change made to an existing Direct order. This document is typically provided via email. Once an existing order is transferred from the Microsemi system to the Microchip system an Order Acknowledgement will then be sent. Customers or Distributors that have an EDI connection will receive either an 855 acknowledgement (US & Asia) or ORDRSP acknowledgement (Europe) via EDI.

Cancel/Reschedule:

Microchip can advise reschedule/cancellation terms upon request. These terms will be stated on the order acknowledgment upon confirming the Purchase Order.

Advanced Ship Notice (ASN): When placing a Direct Order with Microchip, customers can elect to receive an Advance Ship Notice. This document advises that your order is prepared to ship to the location identified on your Purchase Order. This option will be discussed with you by your local Microchip Contact prior to the go live date in February.

Managing Product Requirements during the Transition: The Microsemi order entry and shipment systems for items identified in this information packet will transition to Microchip systems on or about February 15, 2021. Until that time, please continue to manage your product requirements as you do today. If changes have been made with your local Representative Sales Office, please see the Microchip section **Contacting Microchip** from above. Microchip will have a 'Quiet Period' that will occur for several days surrounding the final integration so that we can import all existing Purchase Orders into our system. During that time, we will not Accept New Orders, Modify/Cancel Existing Orders, or Ship Product. Please contact your local sales office with any questions or concerns.

Shipping and Invoicing after the transition: After February 15, 2021, all products identified in this phase will be shipped and invoiced from Microchip. Please alert your **Receiving and Accounts Payable** departments of this change; in our experience, some clients must cancel existing backlog and then re-issue a new P.O. to Microchip. Over the coming weeks Microchip will contact you to discuss all your needs to ensure there is no interruption in your supply chain.

Vendor/Supplier Code: If your system requires a new code to support order placement to Microchip and receive in Microchip shipments, please arrange as needed.

Shipping Labels, Boxes and Packing Methods: Labels, Boxes and Packing methods will be standardized to Microchip's current processes. Special shipping labels for special products such as programming products, special testing, etc. will adhere to the standard Microchip process over time. See attached Standard Microchip Label Specification and copy of the label for modules for your reference.

Lots, Trace Codes, Date Codes, Part Aging, and Shelf Life: Standard Microchip methods for combining production lots, trace codes and date codes into tubes, trays, and reel media will apply as well as standard Microchip Part Aging and Shelf Life Policies. Microchip quality documents and policies including part aging policy are found on our website. <https://www.microchip.com/quality>

Payment Terms: Standard payment terms are N30

Terms & Conditions: Microchip Sales are subject to the company's Terms and Conditions ("T&C"). Microchip T&C does differ slightly depending on whether the customer is in the European Union or elsewhere in the world and whether they are purchasing Direct or through microchipDIRECT. Microchip Terms and Conditions are attached.

Product/Process Change Notification (PCN) after the transition: The standard Microchip methods for notifying customers about product changes that include PCNs and End of Life (EOL) notices will begin to apply (please note that this process will integrate over multiple phases of select products during this period). Part of the standard method includes a PCN email service that we expect to be available to select Microsemi customer/product combinations soon after each integration of select products. Once available, customers who wish to receive PCN's via email are expected to register for PCN email service on our PCN web page. Information about how and when to register will be provided in separate integration PCNs as the products you are interested in are phased in. The Microsemi PCN system will continue to be used in conjunction with a partial Microchip PCN system until the full Microchip PCN system can support Microsemi products soon after each group of products have been integrated (review how in the Microsemi Integration PCN's below). The Microsemi PCN system supporting integrated groups of products will be terminated soon after the transition to Microchip systems has completed for each product grouping. Information about Microchip's PCN system can be found at this link:

<https://www.microchip.com/pcn>

Microsemi Integration PCN's: Until each product grouping has been integrated into Microchip's PCN system all PCN's related to the integration will be distributed using the Microsemi PCN system and can also be found at this Microchip website:

<https://www.microchip.com/pcn>. This same PCN distribution process will be used to inform customers to register for the Microchip PCN email distribution process soon after each product grouping has been integrated. Additional integration PCNs for Microsemi products may be issued for the following changes; ordering part numbering convention, shipping labels, shipping boxes, packing methods, part aging/shelf life, top marking, manufacturing site, Bill of Material (BOM), Silicon, and EOL among others.

RoHS Information: Can be found on the Microchip Website under RoHS PB Free, RoHS Device Search. An email will be generated from the system with all of the pertinent information regarding the device search. <http://www.microchip.com/wwwproducts/Rohs/>
