FAQ**

Q: Why qualify MTAI final test for Eqcologic products?

A: **This is part of the integration plan of Eqcologic and Microchip.**

Q: Where is MTAI?

A: **MTAI is a Microchip facility located in Thailand.**

Q: How will this change affect customers?

A: **There will be no affect to customers. The only change is to the physical location of the testers being used. Testers will be moved from their existing locations to MTAI.**

Q: How will the testers be qualified/verified?

A: **Microchip will perform correlation tests by running Golden Units with full data logs at the currently qualified facility(s) and MTAI then compare results.**

Q: Will all products be tested at the new facilities after **July 30, 2014**?

A: **Not all products will be tested at MTAI after July 30, 2014 because it will take weeks or months to move additional equipment, which will be determined by business conditions. This will stagger when additional products will be tested at MTAI.**
