

Note: This datasheet may be out of date https://www.murata.com/en-global/products/productdetail?partno=CSTCE8M00G55-R0

Please download the latest datasheet of CSTCE8M00G55-R0 from the official website of Murata Manufacturing

CSTCE8M00G55-R0

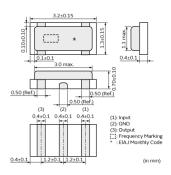

Appearance & Shape

Features

MURATA's package technology expertise has enabled the development of the Chip CERALOCK(R) with built-in load capacitors.

High-density mounting is made possible by the small package and the elimination of the need for an external load capacitor.

- 1. Oscillation circuits do not require external load capacitors.
- 2. Available for a wide frequency range.
- 3. Extremely small and have a low profile.
- 4. No adjustment is necessary for oscillation circuits.

Applications

Other Usage

Consumer/Industrial

Packaging Information

Packaging	Specifications	Minimum Order Quantity
R0	180mm Embossed Tape	3000

Attention

1. This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued without advance notice. Please check with our sales representatives or product engineers before ordering.

2. This datasheet has only typical specifications because there is no space for detailed specifications.

Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering

CSTCE8M00G55-R0

Shape	SMD
Frequency	8.000MHz
Frequency Tolerance	±0.50%
Operating Temperature Range	-20℃ to 80℃
Frequency Shift by Temperature	±0.20%
Frequency Aging	±0.10%
Wash	Not available
Resonant Impedance	40Ω
Built-in Load Capacitance(CL1/CL2)	33pF
