51305C

Through Hole Common Mode Chokes

In Production RoHS

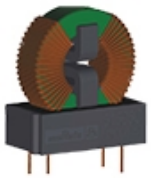

Applications

Unsuitable Applications	Please be sure to read and comply with these "Precautions for use."
Specific Applications	Consumer equipment,Industrial Equipment Please refer to Our Website and specifications, etc. for information about the performance, functions, quality, management, and safety required for the above applications, and use Products after confirming the performance and reliability of the actual Product.

Features

3mH 1.9AThrough-Hole Common Mode Choke designed to attenuate up to 100MHz common mode noise where line fi ltering is required, such as high current switching power supplies and telecom applications.

Appearance & Shape

Attention
1.This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued without advance notice. Please check with our sales representatives or product engineers before ordering.
2.This datasheet has only typical specifications because there is no space for detailed specifications.
Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering.

51305C

Specifications

Shape	Through Hole
Length	10.0mm
Width	21.0mm
Thickness	24.0mm
Rated Current	1900mA
DC Resistance(max.)	97mΩ
Common Mode Inductance	3000μH
Brand	Murata Power Solutions
