June 1<sup>st</sup>, 2022

Valued customer

***Product Discontinuation Notice***  
***Aluminum Electrolytic Capacitors (Radial Lead Type)***

To whom it may concern,

Thank you for using our products.

We would like to inform you End-of-Life of Aluminum Electrolytic Capacitors (Radial Lead Type) as follows.

**1. Products to be affected**

Radial Lead Type Aluminum Electrolytic Capacitors of  $\phi 8$  or less.

**2. Background**

It will be terminated due to the consolidation and abolition of production items and production lines in order to improve production efficiency.

This product has been used by customers for a long time, but demand for this product is decreasing due to recent development progress and changes in the market. In addition, it would be impossible to maintain a stable supply due to the aging of production equipment. Therefore, we decided to discontinue production.

From now on, we will increase production of surface mount capacitors (aluminum non-solid electrolytic capacitors, conductive polymer aluminum solid electrolytic capacitors, conductive polymer hybrid aluminum electrolytic capacitors).

**3. Schedule**

Last order date: March 2024

Final shipment date: March 2025 (Subject to change depending on production conditions.)

**4. Others**

Regarding the replacement products and any inquiries, please ask to our sales side.

Sincerely yours,

Kaname TAKAHASHI
