

Product Change Notification – 2021/02

Product Line:	Stacking Jacks	Part No:	NSJ*H*
---------------	-----------------------	----------	---------------

Piece Part:	Housing and Contact	Part No:	-
-------------	---------------------	----------	---

Engineering Change Request:	2020-0360 2020-0361 2020-0362 2020-0363 2020-0364 2020-0365	Date:	04 Feb. 2021
-----------------------------	--	-------	--------------

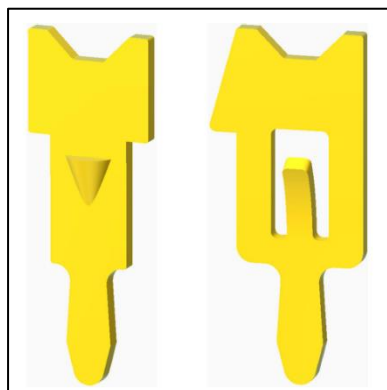

Comments:	Material upgrade UL94 HB to UL94 V-0
-----------	--------------------------------------

Affected products:	NSJ12HF-1 NSJ12HC
--------------------	----------------------

First shipment of modified product:	N47
-------------------------------------	-----

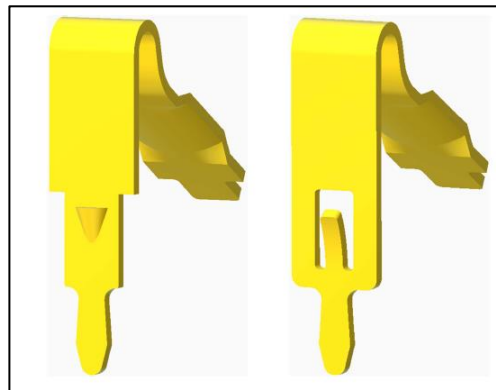

Engineering Change Notice

Due to the new IEC 62368-1 standard the Neutrik Stacking Jacks have been modified. To ensure the compliance according to this new standard, the material has been changed from UL94 HB to UL94 V-0 classification. Because of slight different material properties also the contacts were changed to ensure robustness and durability.
