Part Series Affected: Mini MOX (MOX400,MOX750,MOX1125) and RX-1M Series

Effective Date: May 2nd 2022

Starting May 2nd, 2022, the Mini MOX and RX-1M thick film resistor series will undergo a manufacturing process change. The application of thick film ink will change from a dipping method to printing method. This change increases yield, lowers lead times, and allows more precise application of ink to the substrate. This will be a running change applied throughout the part series and will have no effect on part performance.
