EMC Relay, Switch, and Connector products

No. 200326TT-02

Modification Notice for adding marks due to compliance with EAC standards

[Effective Date]

Effective as of our production in August 2020 or later,
after complete to prepare adding marks on each model.

[Applicable Model]

Relays, Switches, and Connectors, compliant with EAC standards.

(For details, refer to the " **[Details of applicable model]** ".
As there are more than 10,000 applicable models, only series
names are described in this product news.)

[Reason for change]

EAC: Eurasian Conformity (Russia, Belarus, Kazakhstan) in order to meet demands for EAC products in the Eurasian Economic Union (EAEU), which consists of Russia and neighboring countries, the EAC mark has been added to only products exported to the EAEU. With this design change, the EAC mark will be put on all EAC products to quickly meet increasing demands.

[Change of products specification]

Unnecessary to change the product specification submitted

[Changes]

EAC marks are marked on product body or packaging label.
(Marked on product marking are some items on Power Relay below type only.
Other type marked on packaging label because they don't have enough space of product.)
In order to add marks, the layout, size, and printing method may be changed.
This design change does not affect functionality and performance of products.

[Marked on Product body]
  Power Relay
    G7EB series / G7L-PV series / G7L-X series / G9TA series / G9TB series
  DC Power Relay
    G9EA series/G9EB series/G9EC series/G9EJ series/G9EN series

EAC Mark
