

## Metallized Polypropylene Film Capacitor (For Automotive)

Series : **ECQUA** [Class X2]

**NEW**

In accordance with UL/CSA and European safety regulation class X2  
Equipped with a safety mechanism

### Features

- High safety (safety function installed)
- High humidity resistance (THB test : 85 °C, 85 %, 240 V.AC, 1000 h )
- High Thermal shock resistance (-40 ⇔ 85°C, 1000 cycles)
- Flame-retardant plastic case and non-combustible resin
- AEC-Q200 compliant
- RoHS compliant

### Recommended applications

- Interference suppressors for automotive

### Explanation of part number

### Applicable standard

\* It is certified as type ECQUA in the following approval.

Approval		Class	Certification
UL	UL60384-14	Class X2	UL
CSA	CAN/CSA E60384-14	Class X2	
Europe	EN60384-14	Class X2	VDE
International	IEC60384-14	Class X2	

\* When applying this capacitor to European and American safety standards, please use type designation and rating such as ECQUA, 0.1 μF.  
\* Approval number (File No.) of safety regulations are subject to revision without notice. Ask factory for a copy of the latest file No.

### Specifications

Category temp. range	-40 °C to +110 °C
Rated voltage	275 V.AC
Capacitance range	0.10 μF to 4.7 μF
Capacitance tolerance	±10 % (K), ±20 % (M)
Dissipation factor (tan δ)	C ≤ 1.0 μF : tan δ ≤ 0.1 % ( 20 °C, 1 kHz ) C > 1.0 μF : tan δ ≤ 0.2 % ( 20 °C, 1 kHz )
Withstand voltage	Between terminals : 633 V.AC, 1183 V.DC, 60 s Between terminals to enclosure : 2050 V.AC, 60 s
Insulation resistance (IR)	C ≤ 0.33 μF : IR ≥ 15,000 MΩ ( 20 °C, 100 V.DC, 60 s ) C > 0.33 μF : IR ≥ 5,000 MΩ · μF ( 20 °C, 100 V.DC, 60 s ) C ≤ 0.47 μF : IR ≥ 2,000 MΩ ( 20 °C, 500 V.DC, 60 s )
Maximum AC voltage * *	310 V.AC

\* Use of this capacitor is limited to AC voltage (50 Hz or 60 Hz sine wave).

\* A faint corona discharge may occur inside of the capacitor element at rated voltage, however there is no influence on the reliability of the capacitor.

\* \* Maximum AC voltage including line voltage fluctuation is 310 V.AC.

310 V.AC is not nominal continuous applied voltage, but only indicates maximum value including in the voltage of the power supply.

Basic nominal voltage is considered as 240 V.AC.

This maximum AC voltage is specified in only ECQUA type, not specified in other types.

Please refer to individual product specification, and contact us for further questions regarding design life.

## Dimensions

Unit:mm

Marking example

(A) side	(B) or (C)side

Note : Only  $\pm 10\%$  as cap. tol. be marked as "K".  
 Note: Date code.

\* ( ) : Suffix for lead crimped

## Guidelines and precautions regarding the technical information and use of our products described in this online catalog.

- If you want to use our products described in this online catalog for applications requiring special qualities or reliability, or for applications where the failure or malfunction of the products may directly jeopardize human life or potentially cause personal injury (e.g. aircraft and aerospace equipment, traffic and transportation equipment, combustion equipment, medical equipment, accident prevention, anti-crime equipment, and/or safety equipment), it is necessary to verify whether the specifications of our products fit to such applications. Please ensure that you will ask and check with our inquiry desk as to whether the specifications of our products fit to such applications use before you use our products.
- The quality and performance of our products as described in this online catalog only apply to our products when used in isolation. Therefore, please ensure you evaluate and verify our products under the specific circumstances in which our products are assembled in your own products and in which our products will actually be used.
- If you use our products in equipment that requires a high degree of reliability, regardless of the application, it is recommended that you set up protection circuits and redundancy circuits in order to ensure safety of your equipment.
- The products and product specifications described in this online catalog are subject to change for improvement without prior notice. Therefore, please be sure to request and confirm the latest product specifications which explain the specifications of our products in detail, before you finalize the design of your applications, purchase, or use our products.
- The technical information in this online catalog provides examples of our products' typical operations and application circuits. We do not guarantee the non-infringement of third party's intellectual property rights and we do not grant any license, right, or interest in our intellectual property.
- If any of our products, product specifications and/or technical information in this online catalog is to be exported or provided to non-residents, the laws and regulations of the exporting country, especially with regard to security and export control, shall be observed.

## <Regarding the Certificate of Compliance with the EU RoHS Directive/REACH Regulations>

- The switchover date for compliance with the RoHS Directive/REACH Regulations varies depending on the part number or series of our products.
- When you use the inventory of our products for which it is unclear whether those products are compliant with the RoHS Directive/REACH Regulation, please select "Sales Inquiry" in the website inquiry form and contact us.

**We do not take any responsibility for the use of our products outside the scope of the specifications, descriptions, guidelines and precautions described in this online catalog.**
