

SUBJECT: EXB-28V, -2HV, -34V, -38V Order and Shipment Change

BULLETIN #: PCNPG42071709

Date: July 17, 2009

Last buy (purchase orders) to Malaysia:	August 31st, 2009
Last shipment from Malaysia:	September 30th, 2009
New purchase orders to Japan :	September 01st, 2009

SUGGESTED REPLACEMENT: N/A

Order and Shipment point Change

In an effort to maximize efficiencies and provide more competitive products at higher levels of service, Panasonic will realign manufacturing operations for our resistor array product line.

We currently operate in both Malaysia (Panasonic Electronic Devices Malaysia Sdn. Bhd., known as PEDMA) and Japan (Panasonic Electronics Devices Co. Ltd., PEDJ).

Panasonic will shift resistor array production from PEDMA to PEDJ, and add production in a China plant (Panasonic Electronic Devices (Tianjin) CO. Ltd., known as PEDTJ).

The operation at PEDTJ (China) is planned to start in April, 2010, while production at PEDJ is currently running.

Type	Panasonic Parts Number	Current vendor	New vendor August
0402x4R Array	EXB28V Series	Japan and Malaysia (made in Japan and Malaysia)	Japan (made in Japan, Malaysia and China*)
0402x8R Array	EXB2HV Series		
0603x2R Array	EXB34V Series		
0603x4R Array	EXB38V Series		

* Panasonic will support our customer qualification requirements for products from our new Tianjin production site as needed.
