

<b>Product Change Notification</b>
------------------------------------

To: PIE Distribution Customers

Issued by:  
 Yamaguchi Matsushita Electronic Co.,Ltd.  
 Engineering Department

Approval	Check	Design
H.Kurimoto	T.Yamaguchi	H.Handa

Product series or Part number	Product : SMD type Aluminum electrolytic capacitors	Applicable model or specification number	For non safety applications
	P/N VS-series ECEV**A* EEE**A*		
Estimated changing date	Starting May 2005	Estimated production Q'ty	Not specified
Revised category	< >Design < >Parts / Materials < >Inspection / Test <#>Others (Factory: Medem, for some case sizes Yamaguchi) (Country Of Origin: Malaysia / Japan)		
Contents	Panasonic (Matsushita Electronic Components Co. Ltd.) will expand surface mount type electrolytic capacitor production in Malaysia (MEDEM: Matsushita Electronic Devices (M) Sdn.Bhd.). These products are currently being supplied from Japan (Yamaguchi).  We would like to get the approval for MEDEM products additionally to the products from Japan. MEDEM already started the production of these products in the year 2002.		
Reason	As a global strategy, MEDEM will be the main production site for both of radial and surface mount type electrolytic capacitors.  But the products will still be continuously available from Japan.  Both factories are producing these items under the same specification.
