<u>Product Change Notification (PCN) – Interface Products - Change of Colour</u>				
Business Unit	Product line	Type of Change.	Effective Date	Action
IF	CK	Color Green to Grey (RAL 7042).	From April 2019	Notify Customers and Distributors
The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.				

Description for PCN	
<p>The products contained within this notification will be changing from their current base color of green to grey (RAL 7042). As Phoenix Contact continually innovates and delivers new products to the market, we find the need to create a consistent visual identity of our Control Cabinet products. This change will allow for a more aesthetically consistent look across Phoenix Contact’s portfolio of products from relays to signal conditioners, power supplies, surge suppression, and more.</p> <p>This change is purely cosmetic in nature and does not impact the form, fit, function, or technical ratings of any product involved in this change. To be clear, form, fit and function will remain the same. During the transition phase, we will ship all green products first followed by the new grey color. This transition will take place at varying rates by part number due to demand and inventory in the supply chain. Being that both colors are technically sound and function the same, Phoenix Contact will not be accepting returns for color preference.</p> <p>Additionally, terminal blocks used within the MACX series products will transition to light grey color (RAL 7035). However, terminal blocks with application-specific coloring (ex. Blue for EX) will remain as they are today.</p> <p>Lastly, the color change can be noticed on the product's packaging by reviewing the "V/C" label. This "V/C" label will be revised to the subsequent number and can be identified on the included document.</p>	
Stock Status	
Can current stock still be used?	Yes
Is mixture of stock acceptable?	Yes
Transaction Dates	
Date modification goes into effect from Germany:	01 April 2019
Expected first shipment (from Phoenix Contact) of the modified products(s):	30 April 2019

How to identify Green or Gray

1. Locate label on outside of package
2. Observe the "V/C" identifier to the right of the Qty, alphanumeric description, and part number (circled in red)
3. Match the listed "V/C" number to the table in attached Excel sheet to uncover if the box contains green or gray parts.

Double click on **Excel logo** below to view the spreadsheet with V/C identified:

Sincerely,

Rebuan Lim
Product Marketing Manager, Interface
