

## Product Change Notification

### PCN-ICC-6004-2020

Business Unit	Product Line Code	Type of Change	Action	Date of Issue
ICC - Industrial Cabinet	BE2	Product Change Notification	Notify Distributors and Field	9/21/2020

*The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.*

#### Description for Product Change Notification

Almost all of Phoenix Contact's Push-in PT terminal blocks have a pre-tinned copper current bar. At present, the listed items still have post-tinned current bars. In order to harmonize the coating process, we will be changing to pre-tinning. The technical characteristics of the product will remain unchanged. Both the base material of the current bar and the coating will stay the same.

#### Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	No

#### Transaction Dates

Date modification goes into effect from Germany:	3/18/2021
Expected first shipment (from Phoenix Contact) of the modified products(s):	9/18/2021

*Should you have any issues with the timeline or content of this product change, please contact Phoenix Contact using the information below. Customers should acknowledge receipt of the PCN within 30 days of delivery of the PCN; provided, however, that the failure to acknowledge receipt does not affect the product change or the effective date thereof.*
