

Product change notification (PCN)

Title / short description	Changes to the cable duct portfolio
Affected article category	Installation and mounting material
Change category	Form and appearance
Change number	CBE230123-01
Reason for PCN/PDN Revision	Correction of the production batch

Purpose/objective of the change

Portfolio optimization in the area of the cable duct range.

Detailed description of the change

The cable ducts portfolio and its supply chain are strategically optimized in terms of design, packaging, resilience and sustainability. The redesign of the side punching and its predetermined breaking point allows removing the side punching manually in a more controlled manner. The outer dimensions, the color and the technical properties of the cable ducts remain unchanged. Thus, mixing the old and the new versions is possible. However, the covers of the old and new designs are not interchangeable.

The existing approvals are extended by DNV GL for the halogen free product line, which enables their use in shipbuilding applications.

Packaging quantities are partially adjusted to reduce the packaging variance. Furthermore, the switch to a neutral, non-printed packaging will reduce the product environmental footprint.

See the attachment for further details.

Identifying characteristics

All modified items can be identified by the incremented production batch.

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
Effective date (EOP)	2024-05-31	End of Service (EOSR)	-
End of Sales (EOS)	-

Produktänderungsmitteilung (PCN)

Titel / kurze Beschreibung	Veränderung im Kabelkanal Portfolio
Betroffene Artikelkategorie	Installations- und Montagematerial
Änderungskategorie	Form und Erscheinung
Änderungsnummer	CBE230123-01
Grund der PCN/PDN Revisionierung	Korrektur der Versionscharge

Zweck/Ziel der Änderung

Portfolio-Optimierung im Bereich des Kabelkanalprogramms.

Detailbeschreibung der Änderung

Eine strategische Optimierung des Kabelkanalportfolios und der Lieferkette in Bezug auf Design, Verpackung, Resilienz und Nachhaltigkeit wird durchgeführt. Die Neugestaltung der Seitenstanzung und ihrer Sollbruchstelle ermöglicht ein kontrollierteres manuelles Entfernen der Seitenstanzung. Die Außenabmessungen, die Farbe und die technischen Eigenschaften der Kabelkanäle bleiben unverändert. Somit ist es möglich, die alte und die neue Version zu mischen. Die Deckel der alten und neuen Ausführungen sollten jedoch nicht vermischt werden. Die bestehenden Zulassungen werden um DNV GL für die halogenfreie Produktlinie erweitert, um den Einsatz im Schiffbau zu ermöglichen.

Die Verpackungsmengen werden teilweise angepasst, um die Verpackungsvarianz zu reduzieren. Darüber hinaus wird durch die Umstellung auf eine neutrale, nicht bedruckte Verpackung der ökologische Fußabdruck des Produkts verbessert. Weitere Details siehe Anhang.

Identifizierende Merkmale

Alle geänderten Artikel sind durch die erhöhte Versionscharge identifizierbar.

Beginn der Herstellung (SOP)	-	Letztmalige Lieferung (LTD)	-
Inkrafttreten der Änderung (EOP)	2024-05-31	Einstellung von Service (EOSR)	-
Einstellung des Vertriebs (EOS)	-

CBE230123

Changes in the cable ducts portfolio

- Product photos comparison between old and new version

Old Version

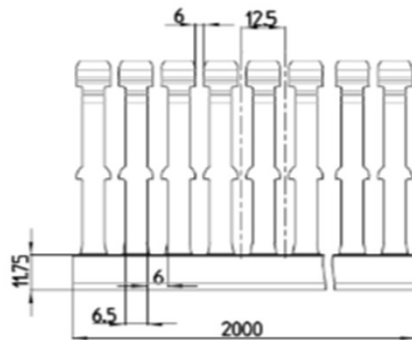

New Version

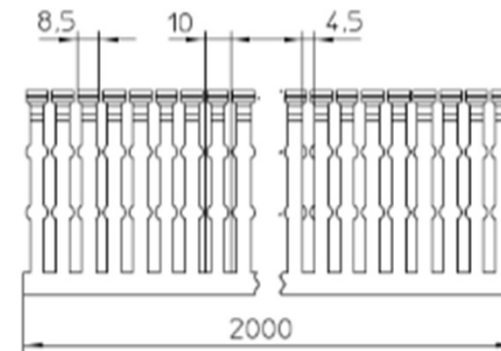

CBE230123

Changes in the cable ducts portfolio

- There will be slight changes in appearance, as shown in the CD 60x80 drawings below as an example:

Old Version

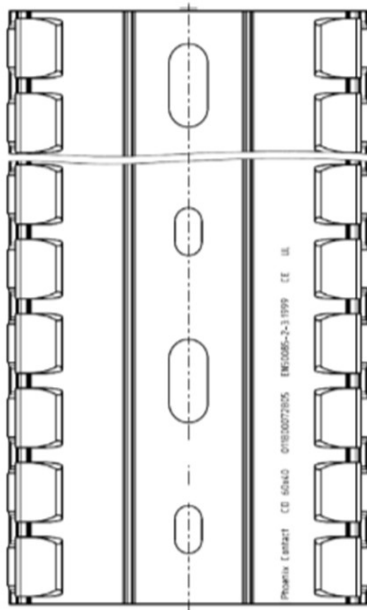

New Version

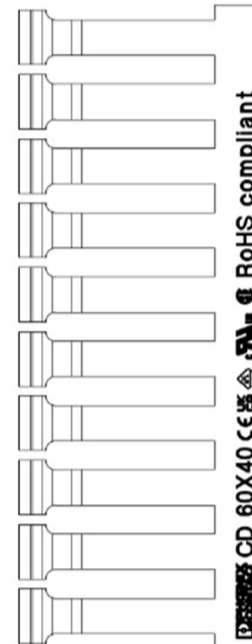

CBE230123

Changes in the cable ducts portfolio

- The Printing on the products will be changed from the bottom to the side, which will look clearer to customers especially after on-site assembly.

Old Version

New Version

The comparison table of packing unit
