

Product Change Notification

PCN Date:		Monday, April 26, 2010		
Supplier Name:		Pulse		
Pulse PCN No.		10-017 rev A		
Description of Change		Change of manufacturing location – Add alternate location(s)		
Reason for Change		To create manufacturing flexibility that will allow Pulse to better manage upsides in market demands		
Summary of Changes between the new and old part		Present		New
		MPO, Mianyang		PTT, Shenzhen Tronson, Dongguan MPO1, SuiNing
Traceability guidelines		Product from: PPT is identified by the letters “PP”; example: 0902-PP, Tronson is identified by the letters “TR”; example: 0902-TR from MPO1 is identified by the letters “”; example: 0902-M1		
Datasheet attached? File name (s)		Not applicable		
Qualification Data attached? File name (s)		Upon request		
Customer Part Number	Pulse Part Number	PCN target Effectivity Date	New mfg location	Expected Pulse Qualification Date
	H6062NL/T	05/10/2010	PPT	by similarity to H5008NL ¹
	HX5008NL/T	05/17/2010	MPO1	05/17/2010
	H2075NL/T	05/17/2010	MPO1	by similarity to HX5008NL ¹
	H2053BL/T	05/17/2010	MPO1	by similarity to HX5008NL ¹
	H2325NL/T	05/17/2010	TRONSON	05/17/2010

Customer: GENERIC

Originator: Franck Carisey

¹ Qualification by similarity means that the processes and the raw materials used in the construction of the similar to parts have been found to be identical to the processes and raw materials used in the construction of the parts selected to qualify a product family. During a product transfer, only parts involving new processes and new raw materials for the receiving plant will undergo qualification.
