*SBU (2-digit) / PG (3-digit) / PUG (3-digit) / Type (10-digit)

2 Type of change

- Modified label
- Improved identification product configuration code on the label

3 Detailed description of change

All product types listed in section 1 receive a new label layout.

To better visualize the changes, we have used colors and numbers to cluster information into the following sections (The colors and white numbers are not part of the new label layout):

Product identification section: To improve readability, we clustered all the information concerning product identification in this group. To increase clarity, we introduce our product configuration code into this area.

1

Product conformity section: Identical information was slightly rearranged.

2

Product logistics section: Label names changed. Information was slightly rearranged.

3

Product approval section: Identical information was slightly rearranged.

4

Interruption ratings section: Identical information was slightly rearranged.

5

Origin information section: Label for Factory Code was added. Information was slightly rearranged.

6

Product Change Notification					PCN Global Labeling Phase 1		
owner	creation date	release date	released by	change order no	rev	page	D10-049-195
schmidre	23.10.2020	23.10.2020	haeckima	2020834	A	1 of 2	

Old label	New label

4 Reason of change

We modernize our label printing process to increase standardization and harmonize processes throughout all SCHURTER factory locations.

5 Release date

Packaging labels will be changed earliest in week 47/2020 (Date code 2047 or higher on the label).

6 Impact of change and recommended action

Form	No	
Fit	No	
Function	No	
Manufacturing	No	
Label	Yes	No actions required since bar code & 2D-code are not affected by the change.
Packaging	No
