Re: Force Majeure Notification due to COVID-19

Dear Valued Customer:

As of July 26, we found out that our multiple operators working at our Gateway plant got positive on COVID-19 and other employees who had close contact have been quarantined as well. As of 29 July, we were obliged to suspend or reduce the operation of our Gateway Plant due to shortage of manpower due to the fact that large number of workers are being quarantined per government requirement.

As a result of this situation that is beyond our reasonable control, a negative impact on our ability to supply is inevitable and consequently your company might be experiencing increases in quoted lead times, longer shipment times and/or rescheduled orders for the Products.

TE must respectfully advise that these circumstances constitute a Force Majeure event under all applicable agreements, expressly or impliedly, between TE and its customers and their respective affiliates.

Though TE cannot control every factor influencing our ability to maintain normal production levels and logistics around the world, our teams are working hard to do its best efforts to mitigate the impact to your business, and we will continue to provide the most updated information.

At TE, we believe that every connection counts and appreciate your continued partnership. We understand that fluctuations in your supply can create challenges for your operations. As such, we remain committed to delivering the highest quality customer service experience possible. TE will continue to carefully monitor the supply chain situation and provide updates as the situation evolves. If you have further questions regarding your specific order, please contact your regional sales

Should you have any question, please contact your regionally assigned TE Sales & Customer Service Team.

Yours sincerely,
