

17-Feb-2022

PCN #: P-22-022188

Subject : Spec 44 and FLDW Wires

Description of Change : TE Connectivity is changing the sourcing and grade for PVDF resin used as insulation material for Spec 44 and FLDW Wires. This change is to an alternate grade with similar performance and characteristics.

Reason : Part status change. The technical assessment on alternate PVDF grade has been completed by TE's technical team and the results demonstrate similar properties and performance to the existing PVDF grades. These results are obtained through validation trials of various finished parts using the alternate grade as insulation material. No change to form, fit and function of the finished parts has been observed. Test reports on the wire characteristics can be provided upon request.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.

Alert document created by IHS Markit based on content provided by TE Connectivity.
