Wire & Cable portfolio exit – Automotive

Schaffhausen, 29th July 2022

Dear valued customer,

With the rapid technological transformation in the automotive industry, trade-off decisions are required to enable long-term value creation for our customers through continuous innovation in strategic areas of our global product portfolio. To focus on the execution of these growing areas, TE Connectivity Automotive (TE) took the decision to exit the wire & cable product line globally.

We want to thank you for your business with us up to this point and outline the below resourcing expectations.

We understand that you and/or your customers need time to qualify and source the respective products elsewhere. Therefore, we continue to ship the wire & cable products **until April 28th, 2023**, as we deem this notice period is sufficient to conduct such a change due to the availability of alternative/equivalent products in the market – see Appendix A and B for details on the parts affected.

Ship-to-request dates after April 28th, 2023 are hereby rejected. We will not accept any liability for you failing to secure alternative supply.

TE does not accept any new RFQs or new businesses for which we have not yet been nominated.

For wire & cable products sourced as part of a Tier-Three Supplier Agreement, if applicable to you (see parts list in Appendix C), our TE account manager will reach out to you shortly as we outline the details of the sourcing transition together with your contractual partner.

In case you have any objections, please advise us within two (2) weeks. Otherwise, we will assume that you accept the above mentioned.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'M. Weibel', written over a light blue horizontal line.

Marcel Weibel
Member of Management
