

18-Nov-2014

PCN #:E-14-017197

Subject:PTL Tab Contacts 1971782, 1971784 and 1971786

Description of Change: Changing Tip configuration on 1971782 and 1971786 to new form that includes V slots on the sides. Remove original tip from 1971784 so that only alt tip is produced. Increase height of keying tab from 3.20 to 3.30. Update wire sizes to add 2x22 AWG wire to existing wire sizes on 1971784 drawing.

Reason: Product Improvement. New Tip configuration and increase in keying feature height facilitates alignment during mating with Plug assembly. Addition of 2 x 22AWG allows 1971784 contact to also be used with this wire combination.

Impact of Change:form - fit - function

Key Dates:

Contact By Date:16-Feb-2015

Implementation Date:16-Feb-2015
