PCN #:P-15-011322

Subject:Amplimite Size 5 Assemblies

Description of Change: Update rear shell to use common component (with standard .154 inch hole diameter) for the sz 5 assemblies. There is no change to the front shell, or the mounting hole diameter of the front shell. Other shell sizes are not affected by this change. This change is included as part of ECR-15-005040.

Reason: Product improvement. This will allow for use of a common rear shell component. The assembled shell mounting hole diameter is controlled by front shell. There is NO change to hole diameter as called out on TE Customer Drawing. This change only affects the sz 5 assemblies. Other sizes were previously changed.

Impact of Change:form - fit - function

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
