

26-Jun-2015

PCN #:E-15-008910

Subject:094 Pins, Plugs and Receptacles

Description of Change: In an effort to standardize raw material on a global basis. TE Connectivity has completed a review of our current material standards for Brass connectors. This review has resulted in our design to reduce the number of regional alloys and align at the global level by standardizing on C27400 alloy.

Reason: Product Improvement. In an effort to standardize raw material on a global basis. TE Connectivity has completed a review of our current material standards for Brass connectors. This review has resulted in our design to reduce the number of regional alloys and align at the global level by standardizing on C27400 alloy.

Impact of Change:form - fit - function

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
