TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
PTL TPA's and CPA 1971777-x, 1971778-x and 1971789-1

Description of Changes
Manufacturing location change. TE Connectivity (TE) will be utilizing strategic suppliers to increase overall capacity for Power Triple Lock TPA and CPA products for the following Part Numbers.

Reason for Changes:		
Dear Customer, Due to capacity constraints within the Lickdale manufacturing facility in Jonestown, PA, TE will be working with their strategic supply base to obtain additional capacity to better support customer needs. Rather than providing the typical 60 or 90 day advanced notification, this move will be immediate in an effort to minimize late shipments to our customers. The incremental capacity will be introduced at suppliers over the next several weeks. TE reserves the right to move this tooling between qualified suppliers and the TE internal manufacturing site as is appropriate to best fulfill customer needs. If you do not want to receive shipments from the new manufacturing location until after the normal notification timeframe of 60 or 90 days per agreement, please let us know so that your account can be marked accordingly. Please note that should you elect this option, it may result in a delayed shipment of product.
