

25-May-2016

PCN #:E-16-006669

Subject:CPC Series 2 Standard Sex Size 23-63 Receptacle Assemblies
205843-1 and 205843-2.

Description of Change: 1). Part No 205843-1 only. Allow the date code to be created on the part using laser marking in addition to the existing ink stamping method. 2). Part 205843-2 only. Allow the date code to be created on the part using laser marking in addition to the existing ink stamping method. Move the location of the date code marking from the top of the housing flange to the edge of the housing flange. 3). 205843 customer drawing. Show the proper location of the AMP logo and part number.

Reason: Product Improvement. 1). Laser marking if used could reduce the time to produce the parts. 2). Moving the location of the date code on 205843-2 will help reduce the time required to produce the part. 3). The customer drawing does not show the correct location of the molded AMP logo and part number for 205843-2.

Impact of Change:form - fit - function

Key Dates:

Contact By Date:31-Aug-2016

Implementation Date:31-Aug-2016

Product Affected

205843-1

(Alias Part Numbers:

"0-0205843-1")

205843-2

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary

from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
