

07-Nov-2016

PCN #:P-16-013819

Subject:Cable assemblies

Description of Change: In alignment with our strategy to be a service partner for our customers, we have decided to move our production out from the Dongguan Plant, our Industrial Cable Assembly production and consolidate in the region of consumption. This re-localization will make us more flexible and fast towards our customers while reducing our financial exposure, such as finish lower good stock, logistic costs benefits, and improve our competitiveness by consolidating volume in fewer locations.

Reason: This is going to be a major change on how we do business. It will not be only a migration, it will be the opportunity for us to automate, align and improve processes across our plants. Therefore it will be a key focus for each of us from Operations to Engineering to Product Management and Project Management and it will require everybody s support to make this successful as our timeline is going to be very aggressive. Estimated transfer date: WK50-2016 Estimated date for the sample run of the first PN at the Receiver: WK12-2017 Estimated date for the TE-internal PE production release of the first PN: WK13-2017 Estimated date of the serial production start: WK23-2017

Impact of Change:Manufacturing location change

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
