

21-Nov-2016

PCN #:E-16-016204

Subject:DEUTSCH DRC, HDP, DT Backshells

Description of Change: Change from using a humidification chamber to spraying small amount (spritz) of water inside the packaging before shipment to put moisture into the backshells. Also, there will be a plastic bag inside the box to retain the moisture. See attached before and after photos.

Reason: Dear customer, we are contacting you to notify you of a process change to the way we add moisture to the backshells. The new process will add a small amount of water using a spray bottle to spritz the parts inside the packaging. This change does not affect part fit, form or function. Shipment of both versions may be mixed. **IMPORTANT:** This is a continual improvement so the current and previous revisions of these parts can be used interchangeably in the field. This change is being phased in gradually and previous revision can remain stocked until use. The product drawings are not affected.

Impact of Change:form - fit - function

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
